Welcome to know our pedestrian light head

General information:

GuangAn's pedestrian lantern (pedestrian traffic signal light) is designed to meet China and International Standards. This guarantees you of the quality of product you are receiving. The pedestrian lantern uses the same modular body and has the same features as the vehicular lantern to indicate the "Walk" and "Don't Walk" cycles. They can be combined with the Guangan's push button and acoustic signal device to provide a complete, and safe, signalised crosswalk solution.

Product features:

- 1) available in D200/300mm
- 2) power savings up to 90%
- 3) vandal-proof design
- 4) support push button and acoustic signal device
- 5) countdown timer could be integrated
- 6) shell available for yellow color and black color
