

## Radar speed sign/ driver feedback sign

### Short Description:

Guangan traffic offer a wide range of driver feedback signs (also known as radar speed signs or variable speed limit signs) to meet your ever changing needs.

### **Description:**

Driver feedback signs are designed to increase driver speed awareness and roadway safety for residential communities, schools & educational corridors, hospitals, business parks, highway and road construction sites, military bases, police enforcement zones and just about anywhere speeding is a problem.

These feature-rich driver feedback signs are a proven solution that slows traffic and also aids state and local agencies in making informed planning and enforcement decisions based on timely access to collected data.

### **Benefits:**

- 1) High contrast resolution LED design for day and nighttime visibility
- 2) Available for solar powered and electrical powered
- 3) Affordably priced
- 4) Actively encourages driver compliance to posted speeds
- 5) Easy to install and programmable
- 6) Tough resistance to the elements—low maintenance
